

Documents

The plan document and appendices have been saved below as one combined document and separately to allow you to choose what portions you desire to download and review.

[North Florida Regional Water Supply Plan - with appendices](#) *(Note: Appendix A will not be available until after the review period is closed. It will be compiled once the comments are received by the districts.)*

[North Florida Regional Water Supply Plan - without appendices](#)
[Comment Review Form](#)

- [Appendix A: Workshop and Stakeholder Comments with Responses](#) *(Note: Appendix A will not be available until after the review period is closed. It will be compiled once the comments are received by the districts.)*
- [Appendix B: Demand Projection, Reclaimed Water and Water Conservation Methodology and Tables](#)
- [Appendix C: Simulated Change in the Potentiometric Surface within the North Florida-Southeast Georgia Regional Groundwater Flow Model Area](#)
- [Appendix D: Evaluation of the Potential for Groundwater Quality Degradation Due to Saline Water Intrusion](#)
- [Appendix E: Minimum Flows and Minimum Levels – Adopted and Priority Lists](#)
- [Appendix F: Minimum Flows and Minimum Levels – Assessment](#)
- [Appendix G: Recovery Strategy: Lower Santa Fe River Basin](#)
- [Appendix H: Priority Waterbodies without MFLs – Assessment](#)
- [Appendix I: Potential Change to Wetland Function – Methodology and Results](#)
- [Appendix J: Water Resource Development Project Options](#)
- [Appendix K: Water Supply Development Project Options](#)
- [Appendix L: Potential Water Supply Development, Water Resource Development and Conservation Project Options](#)
- [Appendix M: Water Conservation Project Options](#)
